(L. S.)      STATE OF NEW HAMPSHIRE

*To the Inhabitants of the Town of Brentwood in the County of Rockingham in said State, qualified to vote in Town Affairs:*

You are hereby notified to meet at Town Hall in said Brentwood on Tuesday, the eighth day of March next, at 10 of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation for the same.

3. To see if the Town will vote to apply for State Aid, and make appropriation for the same.

4. To see what sum of money the town will vote to raise and appropriate for the control of white pine blister rust.

5. To see if the town will make a special appropriation of Five Hundred (\$500.00) dollars for repairs on different parts of South Road in said town, in places deemed best by the selectmen and under their supervision, using gravel, rocks and small stone. (By petition).

6. To see if the town will vote to raise Four Hundred (\$400.00) dollars to finish the road from the bridge

beyond S. A. Prescott's to the North Road. (By request).

Given under our hands and seal, this Seventeenth day of February, in the year of our Lord nineteen hundred and twenty-seven.

LEROY M. LAKE,  
GEORGE A. LYFORD,  
Selectmen of Brentwood.

A true copy of Warrant—Attest:

LEROY M. LAKE,  
GEORGE A. LYFORD,  
Selectmen of Brentwood.

## SUPERINTENDENT'S REPORT

To the School Board and Citizens of Brentwood:

I herewith submit my seventh annual report as superintendent of the Brentwood schools, consisting of an account of the condition and progress of the schools during the school year beginning July 1, 1925, and ending June 30, 1926, a glimpse at the four months of the current year, a review of several items of last year's recommendations and some suggestions for the future.

It is hoped that the tables of statistics accompanying this report will be clear in statement and useful in information. Perhaps a word of comment about one or two of them is not out of order.

Table I shows us that the number of pupils in our schools is increasing, the total number in June, 1926, being thirteen more than in 1925 and twenty more than in 1924. Last year's percent of attendance was sixty-seven hundredths less than the year ending June 30, 1925, and the item of expense for teachers was greater by \$260.00, though practically the same as for the year ending June 30, 1924.

A perusal of Table II shows that the attendance was good last year in all the schools except one. While it should be said in defense of that school that there was a good deal of sickness which prevented constant attendance, it must be said also that without danger or harm to the pupils there a much better record is easily possible as is shown by the fact that during the first sixteen weeks of the current year the percent of attendance has averaged ninety-seven or better.

Table III containing the names of thirty pupils shows the best record of perfect attendance which I have known in Brentwood. The record for several years is as follows:

Years	Pupils in school	On the Honor Roll
1919-20	106	28
1920-21	102	24
1921-22	94	22
1922-23	90	7
1923-24	78	13
1924-25	85	11
1925-26	98	30

During these years a few names have appeared repeatedly, showing it seems to me, most commendable interest on the part of both pupils and parents. The list of names follows:

Name	Years Recorded
Lucille Swasey	6
Joseph Swasey	5
Rachel Swasey	3
Sereno Pevear	3
Thelma Drowns	3

Table IV shows us that in correction of physical defects we have made little progress in the last few years except in the items, "defects of vision" and "vaccination". There is probably no doubt that, with all the defective teeth, tonsils and adenoids cared for our children would not only do more efficient work in school but would, to a larger extent, be insured for manhood and womanhood against much ill health.

#### *The School Year*

In consequence of a vote taken at the last district meeting we are to hear a report this year as to the general feeling among parents in the district with regard to a longer school year. I would emphasize my recommendation of last year that we lengthen our school year by one week or that our contracts with teachers call for 180 teaching days of school, a step which could be taken at no added expense. There are two hundred and forty-odd districts in the state; all except seven of them had

more days of school last year than Brentwood. Our year should be 180 days instead of 165 as last year.

Table VI shows what neighboring districts in our own Union are doing along this and some other lines of school activities.

### *The Teachers*

I wish to repeat my plea of last year that as new teachers come into our service we employ only those who are trained and that we pay salaries accordingly. For the first year of such service we should advance the increases but thereafter the district would be reimbursed from the equalization fund. Very few districts in the state where schools are organized as in Brentwood have so low a cost per \$1,000.00 of equalized valuation. Table VII compares this item in each of the four state aided towns in this Union.

### *Buildings*

During the summer just passed you added to your long list of recent repairs interior painting and new shades for two school houses. Trees were trimmed and removed at the North Road School and the lighting thus very much improved. As I said in my last report, you are to be congratulated on a campaign of repairs which has resulted recently in:

- 4 roofs shingled
- 4 interiors painted
- 3 houses painted on the exterior
- 3 houses fitted with shades
- 2 houses with improved lighting
- 4 houses and fences with many incidental repairs

I believe, however, that the South Road school-house should be painted and that the shed and toilets there should be abandoned and new equipment built during the coming summer. (A report on this matter is due from a special committee at this time.) New steps

at the Marshall's Corner schoolhouse are needed immediately and it seems to me that in the near future shed and toilet conditions there should be further improved. The Crawley's Falls schoolhouse is practically full, a condition which makes the best lighting imperative. As was noted last year, conditions there were improved by the trimming out of trees but the ratio of window area to floor area is 1 to 8; sanitary experts recommend that the ratio be at least 1 to 4 or 5. Extra window area could be added at no great expense. The highway approach to the North Road schoolhouse from the direction of Epping is more or less blind. A simple inexpensive warning sign for automobile drivers might result in the saving of lives in this school.

#### *Accomplishments*

In June, 1926, The Stanford Achievement Test was given to all pupils in grades 3 to 8 who were not absent from school at that time. This test long ago passed the experimental stage, is devised by three of the most trusted leaders in education to be found in this country, has been given to tens of thousands of pupils the average of whose marks have been used as the basis of the standard, and comprises all of the regular subjects taught except handwriting. The finished paper gives teachers and others interested a composite picture of a pupil's individual knowledge of the various subjects, his special weaknesses, his age advancement in school as compared to thousands of other similar pupils. All this is valuable for the teacher especially if she be a new one and unacquainted with her school or if she be unfitted to see clearly that her teaching in some subjects is weaker than in others. This test is also general check on the work of the whole system. Last June the teachers had opportunity to study the results of this test, they have been explained to the School Board and are on file in the Superintendent's office for inspection by all who are interested. It is proposed to repeat these tests each year.

Constant comparison of results in handwriting with the standards of the so-called Ayres' scale, in almost universal use, is had throughout the year and the accomplishments in this subject in the Brentwood schools is good; in one school they are noteworthy.

At the beginning of the current year a change was made in our text-book for spelling and in the method of teaching the subject in all the schools of this Union, with universally gratifying results. A sample list of twenty-five words from all that have been taught during the half year just ended has been given to the Brentwood pupils as a test. By means of a similar procedure in all parts of our country during the last three or four years the publisher of our book has established the average or medium percent attained in each grade on this test. A comparison of the Brentwood schools with this standard follows:

Grade	8	7	6	5	4	3
Standard Score	85	86	89	89	88	82
Marshall's Corner	92	88	96	96		84
South Road	90	52	92	88	92	84
Crawley's Falls	92	96		84		84
North Road	68	80	78	52		92

For several years as pupils have come into our third grade or have come into our system from other towns we have given them the National Intelligence Test, the results of which have greatly aided those in charge of the schools in doing all possible for each pupil in every school.

The continued interest of the School Board and of citizens and parents in all that concerns our schools is much appreciated.

Respectfully submitted,  
CLIFTON A. TOWLE,

Superintendent of Supervisory Union No. 16.  
Exeter, N. H., February 3, 1927.
